

New Large Facilities "Communities of Interest" Portal

Richard Oram, NSF LFO,
Large Facilities Advisor

NSF Large Facility Webinar
August 11th, 2021

Introduction: Large Facility Workshops/Webinars

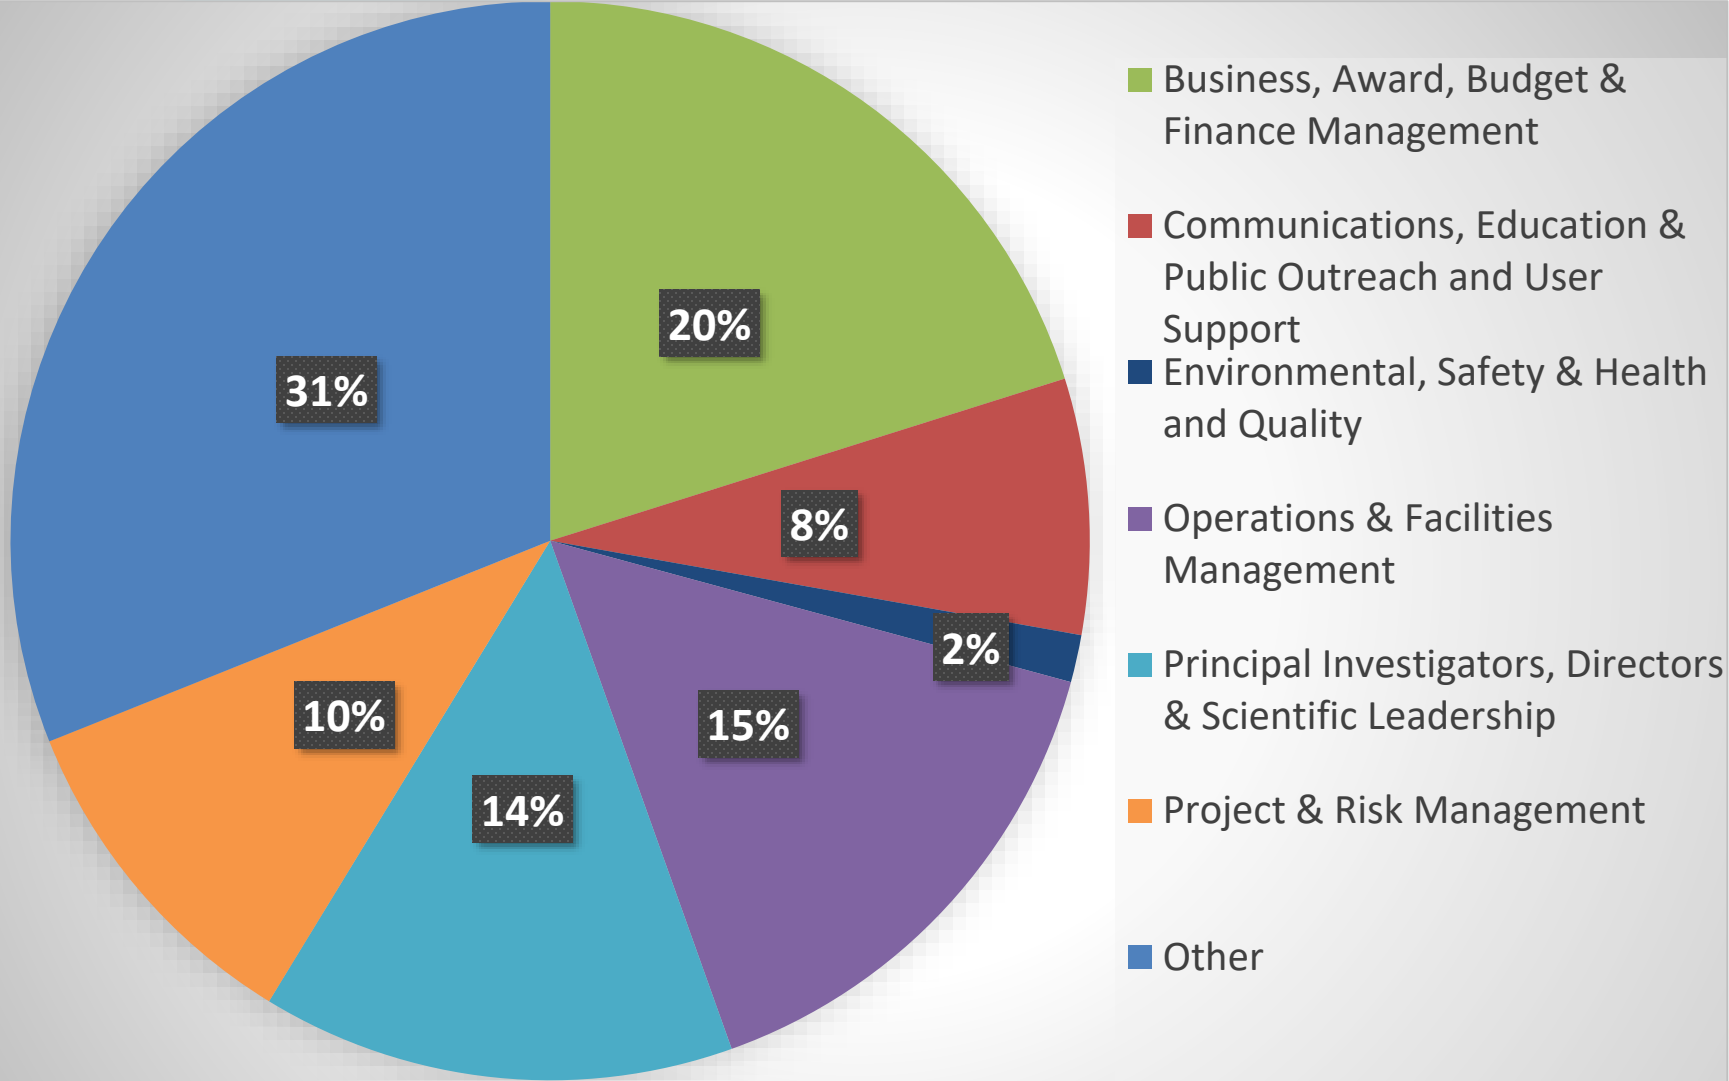

- The goal is a to provide a collaborative forum for the National Science Foundation's Large Facilities and Mid-Scale Projects and other complex scientific facilities and organizations.
 - Provide a forum to collect and **share best practices and lessons learned**
 - Discuss new initiatives and **collect community input**
 - Demonstrate project management, operations, and business-related tools and techniques
 - Expand our community of practice by **connecting colleagues** across disciplines and organizations to **promote collaboration** between facilities
